

Elvis Musau Mutinda

Software Engineer

Experienced Software engineer with over 3 years of experience writing and testing code, helping develop scalable software system solutions using Agile methodologies, and updating companies' knowledge using the latest development tools. Well-skilled in software development using Next.js/Angular.js, Laravel, and PostgreSQL, with a track record of delivering high-quality, maintainable code.

WORK EXPERIENCE

Junior Software Developer · **Nextrans LIT Solutions Limited** Oct 2025 — Present

Software Developer Intern July 2025 — Oct 2025

- Contributing to the design and development of Regulatory Information Management Systems (RIMS) used by national medicines regulatory authorities.
- Working on core modules for pharmaceutical licenses, product registration, and workflow automation, aligned with international regulatory standards.
- Implementing responsive, user-friendly interfaces using Angular, DevExtreme, TypeScript, and REST APIs to streamline regulatory processes for stakeholders.
- Enhancing system performance and reliability by optimizing backend services with Laravel.
- Collaborating with cross-functional teams including QA and business analysts to translate functional requirements into well-engineered system features.

Frontend Web Developer · **Arvocap Asset Managers** Nov 2024 — Present

- Implemented key user-centric features in the investment management platform, including setup of client goals and beneficiary structures to support personalized portfolio planning and lifecycle tracking.
- Translated Figma visual designs into responsive, high-quality user interface components, ensuring alignment with product requirements and improving usability for financial advisors and clients.
- Collaborated with cross-functional teams to refine feature specifications, troubleshoot implementation challenges, and maintain a consistent user experience across the platform.

Full-stack Engineer · **Afrib AI Limited** July 2024 — Oct 2024

- Designed and implemented the full-stack architecture of a Legal AI assistant to support legal research and automate document drafting workflows.
- Configured and deployed the company's Odoo ERP system to streamline operations across CRM, Accounting, Inventory, and HR.
- Ensured product-readiness by Dockerizing core applications and setting up CI pipelines for development, staging, and deployment environments.
- Collaborated in code reviews, sprint planning, and knowledge sharing sessions to improve engineering practices and team efficiency.

Software Engineer · **IntelliSOFT Consulting Limited** July 2023 — Oct 2023

- Contributed to development of healthcare-focused web applications and systems for a diverse array of clients using JavaScript, React, Sass, Node.js and Angular.js.
- Collaborated with UI/UX designers on improving the report systems for projects in the company, so as to ensure consistent user experience.
- Collaborated with student developers to complete project tasks on tight deadlines as per client specifications.
- Worked alongside project managers and other engineers to transform creative concepts into refined digital experiences.

SKILLS

Programming Languages

JavaScript, TypeScript, PHP

Libraries & Frameworks

React, Next.js, Angular.js, Laravel, Node.js, React Native

Tools & Platforms

Git, Github, MySQL, PostgreSQL, Docker, Figma

EDUCATION

The University of Nairobi

Bachelor of Science in Computer Science
Sept 2021 — Sept 2025
First Class Honours

CERTIFICATES

AWS Certified Cloud Practitioner

Bachelor of Science in Computer Science
March 2025

Algorand Technologies

Certificate of Merit - Attained 3rd place in the Algorand Hackathon.
April 2024

SELECTED PROJECTS

Intelaw

A web research tool that assists Kenyan legal practitioners in their legal research as well as educating the general public on legal information.

CarePulse

A web application that assists patients book appointments with doctors.

INTERESTS

Web accessibility, solving puzzles, reading books, playing board & video games
